Dear residents,

As mentioned, we are currently working to develop plans for the new University Library.

Information and consultation meeting organised by City Centre urban district

This February, the UvA submitted a physical environment permit application based on the provisional design for the shell of the University Library. This provisional design was presented to the various interested parties at the information meeting held on 4 March.

As indicated during this meeting, the new design deviates from the current 'Post Code Area 1012' zoning plan in certain areas. In order to address this situation, the City Centre urban district is currently preparing a partial revision of the zoning plan. **The City Centre urban district will be organising an information and consultation meeting on this subject on Thursday, 15 May.** The proposed revision will be available for inspection at the city hall, Amstel 1, Civil Affairs Desk, or online at www.ruimtelijkeplannen.nl. The municipal information and consultation meeting will take place in the Special Collections Museum Café, Oude Turfmarkt 129. The programme will start at 19:30.

More information or any questions?

If you have any questions regarding the information and consultation meeting on 15 May, please contact Irene Klarenbeek, the zoning plan revision project leader of the City Centre urban district, by calling 020 2564453 or sending an email to iklarenbeek@centrum.amsterdam.nl. For more information on the development of the City Centre Campus, visit www.uva.nl/binnenstad.

We hope that this provides all the information you need.

Yours sincerely,

Mr Kees Lammers, MCM
Director of Real Estate Development
